

UPPER BLACKSTONE WATER POLLUTION ABATEMENT DISTRICT

Assistant Senior Operator

The Upper Blackstone Water Pollution Abatement District is a MA Grade 7 Wastewater Treatment Plant in Millbury, currently accepting resumes for a Senior Operator. We are one of New England's largest clean water treatment plants serving roughly 250,000 people in the greater Worcester area and managing biosolids for an additional 14 communities.

Candidates will be responsible for operating and maintaining WWTP facility processes and equipment, including belt filter presses, multiple hearth incinerators, and a biological nutrient removal activated sludge system. Process-control laboratory analysis. Ability to work with SCADA.

Checking, operating, inspecting, servicing and cleaning of equipment, including regulation of automatic equipment and the like; ability to carry out emergency procedures; assigning, instructing and supervising operators and; keeping periodic records, operating engines and auxiliary equipment; operating an automobile or truck as required. Oversees and performs custodial duties incidental to the work.

Acts as shift supervisor in the absence of the Senior Plant Process Operator, performing all responsibilities expected of that position.

Weekend work is required. Massachusetts Grade 6 certification as a wastewater treatment operator and at least 10 years' experience in a wastewater treatment facility is preferred.

Excellent potential for growth.
