

Part-Time, Weekend Laboratory Technician

Upper Blackstone Clean Water is a MA Grade 7 Wastewater Treatment Plant in Millbury, currently accepting resumes for a part-time, weekend Laboratory Technician. Qualified candidates will perform bacteriological and chemical tests and analysis and complete basic analyses in connection with wastewater treatment. Duties will include collection of wastewater samples, preparing reagents and glassware, use of laboratory instrumentation, and entering laboratory results into a database or spreadsheet program. An Associate's Degree related to environmental science or related studies is required. A Bachelor's Degree is preferred – students are welcome to apply. We will train. Prior work in laboratory environment is preferred. This is a part-time weekend position working one day with the possibility of two weekend days per week. A valid driver's license is required.
