

UPPER BLACKSTONE WATER POLLUTION ABATEMENT DISTRICT

ELECTRICAL/INSTRUMENTATION FOREMAN

The Upper Blackstone Water Pollution Abatement District is a MA Grade 7 Wastewater Treatment Plant in Millbury, MA currently accepting resumes for an electrical/instrumentation foreman.

The electrical/instrumentation foreman performs, coordinates, schedules, and oversees the work activities of this division of the maintenance department. Performs maintenance work and safety control involving the inspection, calibration, trouble shooting, repair and replacement of electrical components and equipment, electronic operating and control systems, generation and power distribution systems, motor control and distribution centers, lighting systems and process instrumentation. Foreman provides detailed records of daily work activities, accident reporting, tool and equipment inventories; and predictive, preventative, and corrective maintenance to the Facilities Maintenance Manager.

Foreman must have comprehensive knowledge of process instrumentation, electronic control systems and electrical systems found at a modern wastewater treatment facility. Knowledge of basic computer skills, email, internet searches, and Microsoft Office Suite required. Ten years of combined experience in general mechanical, construction or electrical maintenance work. Must pursue work with energy and drive with an emphasis on safety.
