

# UPPER BLACKSTONE WATER POLLUTION ABATEMENT DISTRICT

## Licensed Electrician

The Upper Blackstone Water Pollution Abatement District is a MA Grade 7 Wastewater Treatment Plant in Millbury, MA currently accepting resumes for an Electrician.

Applicants must be skilled and committed to the inspection, maintenance repair and rebuilding of instrumentation, electronic operating and control systems and electrical systems and equipment of modern wastewater facilities. Perform work of a difficult and skilled nature. Provide detailed records of daily work activities, accident reporting, tool and equipment inventories and predictive, preventative and corrective maintenance information to the Electrical Systems Manager. Assure security of tools and equipment used in completion of work. Coordinates health and safety concerns and policy with the Safety Officer. Interact with plant personnel and outside vendors, suppliers and engineers. Work inside and outside, as well as in tanks and other confined spaces.

Must be able to perform maintenance work involving the inspection, calibration, trouble shooting, repair and replacement of electrical components and equipment, electronic operating and control systems, generation and power distribution systems, motor control and distribution centers, lighting systems and process instrumentation associated with operating a modern wastewater treatment facility. Perform minor mechanical work of an incidental nature during electrical repairs, adhering to safety program requirements and maintaining superior housekeeping standards. Must pursue work with energy and drive.

Possession of a valid Electrician Journeyman's license issued by the State of Massachusetts is required. Five years of industrial experience in electrical and instrumentation maintenance preferred.
